**Subject:** New FY15 Permit Chart to update

Attached is the first edition of a FY15 chart of NPDES permits and other NPDES work which includes all MA and NH permits that expire before 12/31/15. Section chiefs are using this now for FY15 assignments and **bolding** the names of permits we are actively working on. In the meantime, please do the following:

**By COB Thursday 10/16/14**, please check the “who” column for your assigned permits to ensure it correctly reflects if you are waiting for MassDEP or NHDES for a review or another step in the permit development process. Send me an e-mail with your updates. Other updates are optional.

I will be referring to this chart in general terms during the meeting tomorrow and will print out a few copies for the meeting.

Thanks.
